### Appendix A. Survey Methodology

#### SURVEY ELIGIBILITY AND PARTICIPATING COLLEGES

Together with administrators, the Hope Center fielded this survey at all participating colleges. Each institution agreed to administer an online survey in the fall. To boost response rates, a limited number of \$100 incentives were offered to randomly selected survey participants at each college. Additionally, incentives valued at \$150 were offered to parenting students randomly selected across all participating colleges. Institution staff sent a series of invitations and follow-up reminders to all enrolled students encouraging them to participate.

The Hope Center provided the email invitation language as well as hosted the survey as shown below. Upon opening the survey, students were presented with a consent form in compliance with Institutional Review Board standards. To be counted as a participant, the student had to click continue as a record of consent and complete at least the first page of the survey. Participating colleges were asked to use only the provided invitation language to ensure consistency across colleges. In order to boost survey response rates, some colleges also spread the word about the survey using text messages and social media. In these cases, they used language and materials provided by the Hope Center.

Subject: College and you, during a pandemic
From email address: [someone students "know" at YOUR COLLEGE]

[COLLEGE LETTERHEAD FOR EMAIL]

Dear [STUDENT FIRST NAME],

Let's get real. Life is a lot right now. You're the expert when it comes to what's happening with your college experience. So we need your help supporting [COLLEGE OR UNIVERSITY NAME] with information it can use to help.

Share your story in the #RealCollege Survey. We asked the Hope Center for College, Community, and Justice at Temple University to help us do this because we value you. You were chosen simply because you are one of our students. In appreciation, you can win \$100 for completing the survey.

[STUDENT FIRST NAME], please get started now.

#### **COLLEGE SURVEY PARTICIPANTS**

In 2020, 14 postsecondary colleges and universities in Texas fielded the survey early in the fall term, as students enduring basic needs insecurity are at greater risk for dropping out of college later in the year.

TABLE A-1 | CHARACTERISTICS OF PARTICIPATING COLLEGES (WEIGHTED BY SURVEY RESPONDENTS)<sup>1</sup>

| N (colleges)<br>N (survey respondents) |     | Four-Year<br>Colleges<br>4<br>2,285<br>% | Overall<br>14<br>12,959<br>% |
|--|-----|--|------------------------------|

#### STUDENT SURVEY PARTICIPANTS

#### Who Answered the Survey?

Most students who were sent the #RealCollege Survey did not answer it. Participating colleges sent survey invitations to an estimated 142,500 students<sup>2</sup> and 12,959 students participated, yielding an estimated response rate of 9.1%.<sup>3</sup> Participating two-year colleges sent survey invitations to approximately 120,000 students, and 10,674 students participated, yielding an estimated response rate of 8.9%. Participating four-year colleges and universities sent survey invitations to approximately 22,700 students, and 2,285 students participated, yielding an estimated response rate of 10.1%.

Colleges were asked to distribute the survey to all actively enrolled students in the fall of 2020. We computed responses rates using the number of survey participants divided by the number students invited to take the survey. The survey completion rate reflects the ratio at which a respondent answered all #RealCollege 2020 questions asked to all survey participants.

TABLE A-2 | STATISTICS ON RESPONSE AND COMPLETION RATES, BY COLLEGE TYPE

|                   | Average | Standard<br>Deviation | Minimum | First<br>Quartile | Second<br>Quartile | Third<br>Quartile | Maximum |
|-------------------|---------|-----------------------|---------|-------------------|--------------------|-------------------|---------|
| Two-Year College: | S       |                       |         |                   |                    |                   |         |
| Response rate     | 9       | 3                     | 5       | 8                 | 8                  | 9                 | 15      |
| Completion rate   | 83      | 3                     | 78      | 81                | 82                 | 84                | 87      |

Notes | Participating colleges provided the number of students invited to take the survey. Averages shown in the table are unweighted average response rates across all colleges.

We surveyed all students, in compliance with legal and financial restrictions, rather than draw a sample. The results may be biased—overstating or understating the problem—depending on who answered and who did not. As readers ponder this issue, consider that the survey was emailed to students, and thus they

had to have electronic access to respond. The incentives provided were negligible and did not include help with their challenges. Finally, the survey was framed as being about college life, not about hunger or homelessness.

TABLE A-3 | CHARACTERISTICS OF SURVEY RESPONDENTS

|                               | Two-Year<br>Colleges<br>% | Four-Year<br>Colleges<br>% | Overall<br>% |

| Non-reporting respondents (N)     | 2,520  | 676   | 3,196  |

Notes | Classifications of gender identity, racial and ethnic background, and disability or medical condition are not mutually exclusive. Students could self-identify with multiple classifications. Some racial and ethnic groups were combined due to sample size. The Asian category includes students who identify as Asian Americans, Southeast Asian, and Pacific Islanders, the Indigenous category includes students who identify as American Indian or Alaska Native or Indigenous, and the Other category also includes students who identify as Middle Eastern or North African or Arab or Arab American. Percentages of mutually exclusive groups may not add up to 100 due to rounding error. Justice system–involved is defined by whether a student has been convicted of a crime. Foster care–involved is defined by a student who is or was placed in the home of a state-certified caregiver or a family member approved by the state. A dependent is a student who does not earn sufficient income to be an independent student or who must report parental income when qualifying for federal student aid.

#### Appendix B. Three Survey Measures of Basic Needs Insecurity

#### **FOOD SECURITY**

To assess food *security* in the fall of 2020, we used questions from the 18-item Household Food Security Survey Module (shown below) from the U.S. Department of Agriculture (USDA). It is important to note that while we mainly discuss *insecurity*, the standard is to measure the level of *security*, referring to those with low or very low security as "food insecure."

#### Food Security Module

#### Adult Stage 1

- 1. "In the last 30 days, I worried whether my food would run out before I got money to buy more." (Often true, Sometimes true, Never true)
- 2. "In the last 30 days, the food that I bought just didn't last, and I didn't have money to get more." (Often true, Sometimes true, Never true)
- 3. "In the last 30 days, I couldn't afford to eat balanced meals." (Often true, Sometimes true, Never true)

If the respondent answers "often true" or "sometimes true" to any of the three questions in Adult Stage 1, then proceed to Adult Stage 2.

#### Adult Stage 2

- 4. "In the last 30 days, did you ever cut the size of your meals or skip meals because there wasn't enough money for food?" (Yes/No)
- 5. [If yes to question 4, ask] "In the last 30 days, how many days did this happen?" (Once, Twice, Three times, Four times, Five times, More than five times)
- 6. "In the last 30 days, did you ever eat less than you felt you should because there wasn't enough money for food?" (Yes/No)
- 7. "In the last 30 days, were you ever hungry but didn't eat because there wasn't enough money for food?" (Yes/No)
- 8. "In the last 30 days, did you lose weight because there wasn't enough money for food?" (Yes/No) If the respondent answers "yes" to any of the questions in Adult Stage 2, then proceed to Adult Stage 3.

#### Adult Stage 3

- 9. "In the last 30 days, did you ever not eat for a whole day because there wasn't enough money for food?" (Yes/No)
- 10. [If yes to question 9, ask] "In the last 30 days, how many days did this happen?" (Once, Twice, Three times, Four times, Five times, More than five times)

If the respondent has indicated that children under 18 are present in the household, then proceed to Child Stage 1.

#### Child Stage 1

- 11. "In the last 30 days, I relied on only a few kinds of low-cost food to feed my children because I was running out of money to buy food." (Often true, Sometimes true, Never true)
- 12. "In the last 30 days, I couldn't feed my children a balanced meal, because I couldn't afford that." (Often true, Sometimes true, Never true)
- 13. "In the last 30 days, my child was not eating enough because I just couldn't afford enough food." (Often true, Sometimes true, Never true)

If the respondent answers "often true" or "sometimes true" to any of the three questions in Child Stage 1, then proceed to Child Stage 2.

#### Child Stage 2

- 14. "In the last 30 days, did you ever cut the size of your children's meals because there wasn't enough money for food?" (Yes/No)
- 15. "In the last 30 days, did your children ever skip meals because there wasn't enough money for food?" (Yes/No)
- 16. [If yes to question 15, ask] "In the last 30 days, how often did this happen?" (1, 2, 3, 4, 5, 6, 7, 8 or more times)
- 17. "In the last 30 days, were your children ever hungry but you just couldn't afford more food?" (Yes/No)
- 18. "In the last 30 days, did any of your children ever not eat for a whole day because there wasn't enough money for food?" (Yes/No)

To calculate a raw score for food security, we counted the number of questions to which a student answered affirmatively.

- a. "Often true" and "sometimes true" were counted as affirmative answers.
- b. Answers of "Three times" or more were counted as a "yes." We translated the raw score into food security levels as follows:

|                     | Raw Score                     |                                  |  |  |
|---------------------|-------------------------------|----------------------------------|--|--|
| Food security level | 18-item<br>(children present) | 18-item<br>(no children present) |  |  |
| High                | 0                             | 0                                |  |  |
| Marginal            | 1–2                           | 1–2                              |  |  |
| Low                 | 3-7                           | 3-5                              |  |  |
| Very Low            | 8–18                          | 6–10                             |  |  |

#### HOUSING INSECURITY

To assess housing insecurity, we used a series of survey questions adapted from the national Survey of Income and Program Participation (SIPP) Adult Well-Being Module to measure students' access to and ability to pay for safe and reliable housing.<sup>4</sup> In the fall of 2020, we asked students the following questions:

#### Housing Insecurity Module

- "In the past 12 months, was there a rent or mortgage increase that made it difficult to pay?" (Yes/No)
- 2. "In the past 12 months, have you been unable to pay or underpaid your rent or mortgage?" (Yes/No)
- 3. "In the past 12 months, have you received a summons to appear in housing court?" (Yes/No)
- 4. "In the past 12 months, have you not paid the full amount of a gas, oil, or electricity bill?" (Yes/No)
- 5. "In the past 12 months, did you have an account default or go into collections?" (Yes/No)
- 6. "In the past 12 months, have you moved in with other people, even for a little while, because of financial problems?" (Yes/No)
- 7. "In the past 12 months, have you lived with others beyond the expected capacity of the house or apartment?" (Yes/No)
- 8. "In the past 12 months, did you leave your household because you felt unsafe?" (Yes/No)
- 9. "In the past 12 months, how many times have you moved?" (None, Once, Twice, 3 times, 4 times, 5 times, 6 times, 7 times, 8 times, 9 times, 10 or more times)

Students were considered housing insecure if they answered "yes" to any of the first eight questions or said they moved at least *three* times (question #9).

#### **HOMELESSNESS**

To measure homelessness, we asked a series of survey questions that align with the definition of homelessness dictated by the McKinney Vento Homeless Assistance Act. Please refer to pp. 31–32 in Crutchfield and Maguire (2017) for further discussion of this measure.<sup>5</sup>

In the fall of 2020, students were considered homeless if they answered affirmatively to question #1 OR any part of question #2 (parts e through m) in the Homelessness Module (below).

#### Homelessness Module

- 1. "In the past 12 months, have you ever been homeless?"
- 2. "In the past 12 months, have you slept in any of the following places? Please check all that apply."
- a. Campus or university housing
- b. Sorority/fraternity house
- c. In a rented or owned house, mobile home, or apartment (alone or with roommates or friends)
- d. In a rented or owned house, mobile home, or apartment with my family (parent, guardian, or relative)

- e. At a shelter
- f. In a camper or RV
- g. Temporarily staying with a relative, friend, or couch surfing until I find other housing
- h. Temporarily at a hotel or motel without a permanent home to return to (not on vacation or business travel)
- i. In transitional housing or independent living program
- j. At a group home such as halfway house or residential program for mental health or substance abuse
- k. At a treatment center (such as detox, hospital, etc.)
- I. Outdoor location (such as street, sidewalk, or alley; bus or train stop; campground or woods, park, beach, or riverbed; under bridge or overpass; or other)
- m. In a closed area/space with a roof not meant for human habitation (such as abandoned building; car, truck, or van; encampment or tent; unconverted garage, attic, or basement; etc.)

#### Appendix C. Measures of Anxiety and Depression

#### **ANXIETY**

Students' anxiety levels were assessed using a validated seven-item instrument called the Generalized Anxiety Disorder Scale (GAD-7).<sup>6</sup> In the #RealCollege 2020 survey instrument, the items were separated into two sections (items 1-2 and items 3-7). The student needed to cross a certain score threshold in the first two items to progress to the remaining items. The assessment asked students about the number of times in the last two weeks – 0 days (0), 1-6 days (1), 7-12 days (2), or 13-14 days (3) – they were bothered by any of the following items:

Generalized Anxiety Disorder Scale (GAD-7) Module

- 1. Feeling nervous, anxious, or on edge
- 2. Not being able to stop or control worrying
- 3. Worrying too much about different things
- 4. Trouble relaxing
- 5. Being so restless that it's hard to sit still
- 6. Becoming easily annoyed or irritable
- 7. Feeling afraid as if something awful might happen

To calculate a raw score for anxiety, we counted the response score (0 to 3) for each of the questions to which a student answered. Those who indicated that they felt bothered at least some of the days were considered moderately to severely anxious.

|                 | Raw Score  |
|-----------------|------------|
| Anxiety level   | Seven-item |
| None to minimal | 0-4        |
| Mild            | 5-9        |
| Moderate        | 10-14      |
| Severe          | 15+        |

#### **DEPRESSION**

Students' depression levels were assessed using a validated nine-item instrument, called the Patient Health Questionnaire (PHQ-9). In the #RealCollege 2020 survey instrument, the items were separated into two sections (items 1-2 and items 3-9). The student needed to reach a certain response threshold in the first two items to progress to the remaining items. The assessment asked students about the number

of times in the last two weeks – 0 days (0), 1-6 days (1), 7-12 days (2), or 13-14 days (3) – they were bothered by any of the following items:

#### Patient Health Questionnaire (PHQ-9) Module

- 1. Little interest or pleasure in doing things
- 2. Feeling down, depressed, or hopeless
- 3. Trouble falling asleep, staying asleep, or sleeping too much
- 4. Feeling tired or having little energy
- 5. Poor appetite or overeating
- 6. Feeling bad about yourself—or that you're a failure or have let yourself or your family down
- 7. Trouble concentrating on things, such as reading the newspaper or watching television
- 8. Moving or speaking so slowly that other people could have noticed; or the opposite—being so fidgety or restless that you have been moving around a lot more than usual
- 9. Thought that you would be better off dead or hurting yourself in some way

To calculate a raw score for depression, we counted the response score (0 to 3) for each of the questions to which a student answered. Those who indicated that they felt bothered at least some of the days were considered moderately to severely depressed.

|                   | Raw Score |
|-------------------|-----------|
| Depression level  | Nine-item |
| None to minimal   | 0-4       |
| Mild              | 5-9       |
| Moderate          | 10-14     |
| Moderately Severe | 15–19     |
| Severe            | 20+       |

Notes  $\mid$  The table details where the colleges that conducted the 2020 #RealCollege Survey from Texas reside. The table reflects the 14 colleges and universities that fielded the survey.

TABLE D-2 | PERSONAL EXPERIENCES WITH ANXIETY AND DEPRESSION AMONG TEXAS SURVEY RESPONDENTS, BY RACE/ETHNICITY (FIGURE 2)

|   | Overall |    |  |
|---|---------|----|--|
|   | N       | %  |  |
| Students Experiencing at Least Moderate Anxiety:    |         |    |  |
| Overall   | 3,337   | 33 |  |
| Race / Ethnicity:                                   |         |    |  |
| Indigenous  | 164     | 44 |  |
| White or Caucasian                                  | 1,544   | 39 |  |
| Other race  | 99      | 37 |  |
| Hispanic or Latinx                                  | 1,353   | 32 |  |
| Asian   | 157     | 29 |  |
| African American or Black                           | 618     | 28 |  |
| Students Experiencing at Least Moderate Depression: |         |    |  |

| Overall                   | 3,497 | 34 |
|---------------------------|-------|----|
| Race / Ethnicity:         |       |    |
| Indigenous                | 163   | 44 |
| White or Caucasian        | 1,457 | 37 |
| Other race                | 106   | 39 |
| Hispanic or Latinx        | 1,468 | 35 |
| Asian                     | 185   | 34 |
| African American or Black | 691   | 32 |

Notes | The Generalized Anxiety Disorder Scale (GAD-7) was used to measure anxiety. Students "experienced anxiety" if they experienced moderate to severe levels of anxiety in the last two weeks according to the GAD-7. The Patient Health Questionnaire (PHQ-9) was used to measure depression. Students "experienced depression" if they experienced moderate, moderately severe, or severe levels of depression in the last two weeks according to the PHQ-9. See Appendix C for more information on the 2020 measures. Classifications of racial and ethnic background are not mutually exclusive. Students could self-identify with multiple classifications. Some racial and ethnic groups were combined due to sample size. The Asian category includes students who identify as Asian Americans, Southeast Asian, and Pacific Islanders, the Indigenous category includes students who identify as American Indian or Alaska Native or Indigenous, and the Other category also includes students who identify as Middle Eastern or North African or Arab American.

Source | 2020 #RealCollege Survey

Notes | Cumulative percentages may not add up to 100 due to rounding. Results to questions about spring 2020 are limited to parenting students who were enrolled in that term. A parenting student is defined as a student who is a parent, primary caregiver, or guardian (legal or informal) of any children in or outside their household.

## TABLE D-9 | BASIC NEEDS INSECURITY RATES AMONG TEXAS SURVEY RESPONDENTS, OVERALL AND BY COLLEGE TYPE (FIGURE 9)

|                  | Two-Year Col | leges | Four-Year HBCUs |    |  |
|------------------|--------------|-------|-----------------|----|--|
|                  | N            | %     | N               | %  |  |
| Any BNI          | 6,287        | 64    | 1,264           | 72 |  |
| Food insecure    | 3,977        | 42    | 855             | 50 |  |
| Housing insecure | 5,385        | 55    | 1,076           | 61 |  |
| Homelessness     | 1,456        | 15    | 339             | 20 |  |

Source | 2020 #RealCollege Survey

Notes | Students experiencing "Any BNI" includes students who experienced food insecurity in the past 30 days, or housing insecurity or homelessness within the last year. However, some students may have experienced multiple forms of insecurity at the same time. To refrain from divulging the information for a single institution, the overall counts and rates were not included. For more details on how each measure of basic needs insecurity was created, refer to Appendix B.

## TABLE D-10 | LEVEL OF FOOD SECURITY AMONG TEXAS SURVEY RESPONDENTS, BY COLLEGE TYPE (FIGURE 10)

|          | Two-Ye<br>Colleg |    |     |    |  |
|----------|------------------|----|-----|----|--|
|          | N                | %  | N   | %  |  |
| High     | 4,366            | 46 | 630 | 37 |  |
| Marginal | 1,217            | 13 | 212 | 12 |  |
| Low      | 1,685            | 18 | 307 | 18 |  |
| Very low | 2,292            | 24 | 548 | 32 |  |

Source | 2020 #RealCollege Survey

Notes | According to the USDA, students at either low or very low levels of food security are termed "food insecure." Cumulative percentages may not add up to 100 due to rounding. For more details on how we measure food insecurity, refer to Appendix B.

| Yes                         | 1,081   | 68      | 159      | 77      |
| No                          | 5,435   | 65      | 851      | 71      |
| Gender Identity             |         |         |          |         |
| Female                      | 4,763   | 67      | 791      | 72      |
| Male                        | 1,573   | 59      | 194      | 70      |

Source | 2020 #RealCollege Survey

Notes | Classifications of gender identity and racial/ethnic background are not mutually exclusive. Students could self-identify with multiple classifications. Some racial and ethnic groups were combined due to sample size. The Asian category includes students who identify as Asian Americans, Southeast Asian, and Pacific Islanders, the Indigenous category includes students who identify as American Indian or Alaska Native or Indigenous, and the Other category also includes students who identify as Middle Eastern or North African or Arab or Arab American. Students who self-identify as lesbian, gay, bisexual, transgender, non-binary/third gender, or preferred to self-describe their gender identity or sexual orientation are considered LGBTQ. For more detail on how each measure of basic needs insecurity was constructed, refer to Appendix B.

# TABLE D-15 | DISPARITIES IN BASIC NEEDS INSECURITY AMONG TEXAS SURVEY RESPONDENTS, BY FIRST-GENERATION STATUS, PELL GRANT STATUS, AND ENROLLMENT STATUS (FIGURE 15)

| Overall |         | Four-Year HBCUs |         |  |
|---------|---------|-----------------|---------|--|
| Any BNI | Any BNI | Any BNI         | Any BNI |  |

|                          | N     | %  | N   | %  |
|--------------------------|-------|----|-----|----|
| First-Generation Student |       |    |     |    |
| Yes                      | 2,273 | 68 | 257 | 73 |
| No                       | 3,900 | 64 | 709 | 71 |
| Enrollment Status        |       |    |     |    |
| Full-time student        | 3,112 | 67 | 960 | 73 |
| Part-time student        | 4,092 | 64 | 264 | 71 |
| Pell Grant Recipient     |       |    |     |    |
| Yes                      | 4,452 | 72 | 803 | 75 |
| No                       | 2,805 | 56 | 391 | 65 |

Notes | First-generation status is defined as whether a student's parents' highest level of education completed is a high school diploma or GED. For more details on how each measure of basic needs insecurity was constructed, refer to Appendix B.

TABLE D-16 | KNOWLEDGE OF, APPLICATION FOR, AND RECEIPT OF CARES ACT GRANT AMONG TWO-YEAR SURVEY RESPONDENTS IN TEXAS, BY COLLEGE TYPE (FIGURE 16)

|   | Two-Year Colleges |    | Four-Yea | r HBCUs |
|---|-------------------|----|----------|---------|
|   | N                 | %  | N        | %       |
| Heard of CARES Act Grant program        | 3,086             | 53 | 914      | 80      |
| Applied for a CARES Act Grant this year | 2,084             | 36 | 766      | 67      |
| Received a CARES Act Grant this year    | 1,685             | 29 | 500      | 44      |

Source | 2020 #RealCollege Survey

Notes | Because of different systems for the distribution of CARES Act grant dollars across colleges, some students may have received CARES Act grant dollars but did not have to apply for them. For example, some colleges use information from students FAFSA to determine eligibility.

## TABLE D-17 | KNOWLEDGE OF, APPLICATION FOR, AND RECEIPT OF EMERGENCY AID AMONG TWO-YEAR SURVEY RESPONDENTS IN TEXAS, BY COLLEGE TYPE (FIGURE 17)

|  | Two-Year Colleges |    | Four-Yea | r HBCUs |
|--|-------------------|----|----------|---------|
|  | N                 | %  | N        | %       |
| Heard of emergency aid grant program         | 2,877             | 48 | 579      | 49      |
| Applied for an emergency aid grant this year | 1,955             | 33 | 518      | 44      |
| Received an emergency aid grant this year    | 1,612             | 27 | 405      | 35      |

Source | 2020 #RealCollege Survey

Notes | Because of different systems for the distribution of emergency aid across colleges, some students may have received emergency grant dollars but did not have to formally apply for them. For example, some colleges use information from students FAFSA to determine eligibility.

## TABLE D-18 | TEXAS SURVEY RESPONDENTS EXPERIENCEING ANY LEVEL OF STRESS WHEN SEEKING EMERGENCY AID, BY BNI STATUS AND COLLEGE TYPE (FIGURE 18)

| Slightly to extremely stressful                    | 264               | 42        | 121         | 60           |

Source | 2020 #RealCollege Survey

Notes | Rates above are among students who experienced basic needs insecurity and applied for a CARES Act grant or an emergency aid grant this year. To determine stressful experiences when seeking aid, students were asked "How stressful was your experience with seeking an emergency grant?" Students with the following responses are defined as experiencing any stress when seeking aid: slightly stressful, moderately stressful, very stressful or extremely stressful (as opposed to students responding "not stressful at all"). For more details on how each measure of basic needs insecurity was constructed, refer to Appendix B.

TABLE D-19 | TOP USES OF ANY EMERGENCY AID AMONG SURVEY RESPONDENTS IN TEXAS, AT HBCUs (PAGE 39)

|   | HBCUs |    |  |
|---|-------|----|--|
|   | N     | %  |  |
| Stay enrolled in my college or university   | 512   | 71 |  |
| Afford educational materials for my child   | 80    | 11 |  |
| Reduce stress                               | 552   | 76 |  |
| Have more or better food to eat             | 509   | 69 |  |
| Fix my car / buy gas / pay for transit      | 463   | 64 |  |
| Pay for housing                             | 432   | 59 |  |
| Buy or improve my laptop / computer         | 342   | 48 |  |
| Support my family members with their bills  | 319   | 44 |  |
| Avoid eviction                              | 231   | 32 |  |
| Get medical care                            | 167   | 23 |  |
| Afford educational materials for my classes | 553   | 77 |  |
| Afford to travel home                       | 281   | 39 |  |

| Applied for CARES Act Grant this year | 1,274        | 45       | 810                     | 27 |  |
| Received a CARES Act Grant This year  | 1,064        | 38       | 621                     | 21 |  |

Source | 2020 #RealCollege Survey

Notes | Because of different systems for the distribution of CARES Act grant dollars across colleges, some students may have received CARES Act grant dollars but did not have to apply for them. For example, some colleges use information from students FAFSA to determine eligibility.

Source | 2020 #RealCollege Survey

Notes | Classifications of gender identity and racial/ethnic background are not mutually exclusive. Students could self-identify with multiple classifications. Some racial and ethnic groups were combined due to sample size. The Asian category includes students who identify as Asian Americans, Southeast Asian, and Pacific Islanders, the Indigenous category includes students who identify as American Indian or Alaska Native or Indigenous, and the Other category also includes students who identify as Middle Eastern or North African or Arab or Arab American. Students experiencing "Any BNI" includes students who experienced food insecurity in the past 30 days, or housing insecurity or homelessness within the last year. For more details on how each measure of basic needs insecurity was constructed, refer to Appendix B.

## Appendix E. Questions Used to Capture Student Background Characteristics in the Hope Center's #RealCollege Survey

- 1. What is your gender? (Mark Yes or No for each item.)
  - a. Female
  - b. Male
  - c. Non-binary/third gender
  - d. Prefer to self-describe
  - e. Prefer not to answer
- 2. Do you identify as transgender?
  - a. Yes
  - b. No
  - c. Prefer not to answer
- 3. What is your sexual orientation?
  - a. Heterosexual or straight
  - b. Gay or lesbian
  - c. Bisexual
  - d. Prefer to self-describe
  - e. Prefer not to answer
- 4. In what year were you born? (answers by dropdown starting with 2002)
- 5. Are you a U.S. citizen or permanent resident?
  - a. Yes
  - b. No
  - c. Prefer not to answer
- 6. Have you ever served in the U.S. Armed Forces, Military Reserves, or National Guard?
  - a. Yes
  - b. No
  - c. Prefer not to answer
- 7. How do you usually describe your race and/or ethnicity? (Select "Yes" to all that apply if you identify with multiple groups)
  - a. White or Caucasian
  - b. African American or Black
  - c. Middle Eastern or North African or Arab or Arab American
  - d. Southeast Asian
  - e. American Indian or Alaskan Native
  - f. Indigenous
  - g. Hispanic or Latinx/Latina/Latino or Chicanx/Chicana/Chicano
  - h. Pacific Islander or Native Hawaiian
  - i. Other Asian or Asian American
  - j. Other (please specify)
  - k. Prefer not to answer

- 8. What is the highest level of education completed by either of your parents/guardians?
  - a. Eighth grade or lower
  - b. Between 9th and 12th grade (but no high school diploma)
  - c. High school diploma
  - d. GED
  - e. Some college (but no college degree)
  - f. College or trade/vocational certificate
  - g. Associate degree
  - h. Bachelor's degree
  - i. Graduate degree
  - j. I don't know
  - k. Prefer not to answer
- 9. In the last year, did a parent or guardian claim you as a "dependent" for tax purposes?
  - a. Yes
  - b. No
  - c. I don't know
  - d. Prefer not to answer
- 10. How would you describe your current relationship status?
  - a. Single
  - b. In a relationship
  - c. Married or domestic partnership
  - d. Divorced
  - e. Widowed
  - f. Prefer not to answer
- 11. Do you have a spouse or partner that lives with you?
  - a. Yes
  - b. No
  - c. Prefer not to answer
- 12. Have you ever been in foster care?
  - a. Yes
  - b. No
  - c. Prefer not to answer
- 13. Are you the parent, primary caregiver, or guardian (legal or informal) of any children?
  - a. Yes
  - b. No
- 14. Have you ever been convicted of a crime? (Felony and misdemeanor convictions only. Don't include violations or traffic infractions.)
  - a. Yes
  - b. No
  - c. Prefer not to answer
- 15. Do you have any of the following disabilities or medical conditions? (Mark Yes or No for each item.)

- a. Cognitive, learning, or neurological disorders/disabilities (dyslexia, ADHD, autism spectrum disorder, epilepsy, etc.)
- b. Physical disability (speech, sight, mobility, hearing, etc.)
- c. Chronic illness (asthma, diabetes, autoimmune disorders, cancer, etc.)
- d. Psychological disorder (depression, anxiety, PTSD, etc.)
- e. Other: (fill in)
- 16. Are you a varsity student-athlete on a team sponsored by your college or university's athletics department?
  - a. Yes
  - b. No
  - c. Prefer not to answer

<sup>&</sup>lt;sup>1</sup> Survey responses for #RealCollege 2020 were conducted and collected in Qualtrics. The Hope Center team organized, cleaned, and merged survey data with other sources (IPEDS and internal databases) using Stata. Tables and figures produced for the #RealCollege 2020 report were constructed in Stata and Tableau.

<sup>&</sup>lt;sup>2</sup> This count is based on institution-based self-reports of how many students were sent invitations to take the survey.

<sup>&</sup>lt;sup>3</sup> For most participating institutions, the number of survey invitations sent is based on the total number of students at each institution, aged 18 or above, in the fall of 2020, as reported by each institution. Two four-year colleges sent Invitations to a sample of students.
